

Fleet Wash[®] S

Fleet Wash Detergent

Nonfood Compounds
Program Listed A1
134761

FLEET WASH[®] S is a powerful alkaline detergent specifically formulated to remove soils, heavy grease, oil and grime used in the “shock” cleaning of commercial vehicles. **FLEET WASH[®] S** is a very effective and economical product when used in DyChem’s Fleet Wash Systems or Multi-Step Units.

BENEFITS: FLEET WASH[®] S is concentrated for lowest using cost. Cleans and brightens in one action. Excellent rinsing abilities. **FLEET WASH[®] S** can be mixed with up to 100 parts water.

DIRECTIONS: FLEET WASH[®] S can be diluted up to 100 to 1 depending on the soils. Apply by spray foamer or pressure washer. May require brushing for extra tough jobs. After cleaning with **FLEET WASH[®] S**, rinse thoroughly with clean water.
