

Jack Flash

Powerful Liquid Cleaner

JACK FLASH is a high powered cleaner for use in all types of pressure washing, steam cleaning and general cleaning applications.

BENEFITS: **JACK FLASH** quickly removes stubborn deposits of dirt, oil, grime and heavy grease. When used as directed, **JACK FLASH** is safe on all metals. **JACK FLASH** is an excellent cleaner for cars, trucks, airplanes, concrete equipment and most hard surfaces. **JACK FLASH** penetrates and emulsifies grease, oil, dirt and grime from metal, concrete and other hard surfaces. Goes to work immediately to get the job done fast. Recommended for use in car and fleet washes. **JACK FLASH** also does an excellent job on construction and oil field equipment, taxicabs, buses and delivery vehicles. Earth moving and excavating contractors as well as farm implement dealers and manufacturing plants find this product fast and effective.

DIRECTIONS: Dilute **JACK FLASH** with water in a ratio anywhere from 50:1 to 1000:1, depending on the job. Do not use stronger than 50:1 on aluminum.
