

# Cholorosan Special

## Bleach-Disinfectant Deodorant

---

**CHLOROSAN** is a 5% hypochlorite solution used to disinfect and chlorinate such items as bottles, cans and pails, as well as beverage, general dairy and restaurant equipment. Also used for sanitizing restaurant and eating ware and utensils after they have been thoroughly cleaned.

**BENEFITS:** Disinfects and sanitizes areas where very hot temperatures are not available. Used specifically in “cold water” dish wash systems. Just dilute and it is ready to use in a variety of applications.

**DIRECTIONS:** Use only 2 teaspoons per gallon of water when used for washing ice boxes, shelves and containers. Use 200 ppm or more for restaurant sanitation.

**NFPA Code:** Health - 2, Fire - 0, Reactivity - 1, Special - Ox
