

Liquid Egg Wash

Powerful Egg Shell Cleaner

Nonfood Compounds
Program Listed Q1
134758

LIQUID EGG WASH is a powerful cleaner that is designed to remove most soils from egg shells.

BENEFITS: LIQUID EGG WASH is a concentrated cleaner that is specifically formulated to remove most soils from egg shells. **LIQUID EGG WASH** can be used in semi-automatic dip tank machines in conjunction with air agitation or fully automated machines. **LIQUID EGG WASH** will clean most stubborn soils. A pre-soak of 5 minutes is recommended for heavy organic soils.

DIRECTIONS: Dilute with water in a ratio anywhere from ½ to 2oz per gallon of water, depending on the job.

NFPA Codes: Health - 3, Fire - 0, Reactivity - 1
